
MEDICAL COST PROJECTIONS

MCPs project future medical expenses over the course of a claimant's lifetime and make immediate, medically supported claims payment suggestions. This service helps set accurate reserves on complex medical files and can be a key component in claim resolutions. A lower-cost limited MCP is also available to assist with the initial reserve setting on the claim.

PROVIDER BILL REVIEW

Put an end to manual sorting with our bill review services. Our system automatically evaluates bills on a line-item level based on injury, associated body parts and provider billing for the claimant; then reduces charges to fee schedule or usual and customary reductions. We vastly reduce bill review charges and ensure all changes are valid while meeting jurisdictional timeframes.

VRS Disability Management

“Appreciate the Difference”

Providing Services throughout Vermont, Massachusetts, New Hampshire, Rhode Island, Connecticut and Maine

If you have any questions, or would like to make a referral please call us at:

or visit us at www.VRSDM.com

VRS HISTORY & VALUE STATEMENT

VRS offers specialized services throughout New England. Our tradition of knowledge and stability guarantees timely and efficient return-to-work outcomes that save you time and money.

As we grow to meet the needs and demands of the New England market, VRS remains steadfast in our dedication to exceed the high expectations of our customers. We thank those of you who have given us the opportunity to work together. To those who have yet to work with us, we simply ask that you give us a try.

We believe you will appreciate the difference.

FIELD NURSE CASE MANAGEMENT

VRS Field Case Managers (FCMs) across New England coordinate in-person with the injured worker, treating providers, employer, claims professional and other stakeholders to facilitate timely and cost-effective Stay-at-Work/Return-to-Work options. Our FCMs actively engage all parties to promote recovery, mitigate future exposure and curtail medical costs. Available on an on-going or limited task basis.

TELEPHONIC NURSE CASE MANAGEMENT

VRS Telephonic Case Management (TCM) is a process by which our nurses coordinate an injured workers treatment with an emphasis on return-to-work and maximum medical improvement. Our nurses work to ensure timely, quality care for your claimant's and cost-effective medical services for you. TCM works best when the referral is made early in the claim and is most effective in the first 30 – 45 days of the claim.

VOCATIONAL REHABILITATION

Collaboration is the key to creating a successful vocational plan that makes sense and holds the injured worker responsible for being an active partner in the process. VRS Vocational Rehab Counselors' superior experience, knowledge of state regulations, and successful Return-to-Work outcomes are unsurpassed in New England.

LABOR MARKET SURVEYS

Labor Market Surveys give an accurate, up-to-date assessment of the current job market for an injured worker based upon their experience and education. The VRS LMS helps reduce the overall exposure of a claim by ensuring a viable and suitable job market exists. The LMS can also be employed as a valuable settlement enhancement tool. VRS LMS experts have thousands of hours experience providing testimony to demonstrate earnings capacity as well as other relevant matters.

LINE-ITEM BILL AUDITS

The VRS Line-Item Bill Audit is a cost-savings service fundamental to any serious medical cost-containment program (*medical costs are by far the highest claims cost driver*). All audits are either conducted or supervised by a Certified Professional Medical Auditor (CPMA) and are performed on \$5,000 plus bills. With an exceptionally high ROI, savings are achieved on 98% of bills audited.

MEDICAL FEE REDUCTION SERVICES

Our VRS Fee Negotiation Experts help substantially reduce provider fee requests to reasonable reimbursement amounts with an average savings of 58%.

MASSACHUSETTS UTILIZATION REVIEW

Offering same-day turnaround, our MA DIA approved and experienced UR Team apply medically accepted criteria to review and evaluate medical treatment and procedures thereby controlling medical costs while ensuring appropriate medical treatment.

ERGONOMIC EVALUATION & JOB ANALYSIS

There is no better way to reduce lost time days than to keep employees working! A comprehensive ergonomic analysis of a worker's job duties, environment, body mechanics and posture are a sure way to significantly reduce indemnity exposures.

LIFE CARE PLANS

LCPs address the changes, needs and expenses of an injured worker with long-term, usually severe and chronic health care problems. VRS LCP specialists provide an organized, concise plan for current and future needs with associated costs and can be used for reserve setting and settlement negotiations.
