Intertek Alchemy helps thousands of manufacturing companies:

- Reduce workplace injuries
- Stay audit-ready 24/7
- Deliver more safety training in less time

We help you deliver a program of continuous training, reinforcement, and engagement.

Build the knowledge and confidence your frontline workforce needs to correctly apply safe behavior on the floor, 100% of the time, with Alchemy.

“Safety culture doesn’t mean anything if it doesn’t come to life in the actions of our employees. That’s what Alchemy is all about.”

— Rhonda Sparks, Corporate Training, Keurig

**Reduce Accidents & Insurance Costs**

Safety training should never be “one and done.” Alchemy’s strategic mix of visual, digital, and technology-driven tools are proven to drive correct behaviors and reduce injuries.

- Raise safety comprehension and retention with interactive, multilingual training tools
- Verify, reinforce, and correct behaviors on the floor with mobile coaching tools
- Keep key topics top-of-mind with multi-touch communications in high-traffic areas

**Alchemy’s EHS Course Library Includes:**

- Back Injury Prevention
- GHS Communications
- Ladder Safety
- Lockout/Tagout (LOTO)
- Machine Guarding
- Slips, Trips, and Falls
- PPE
- Electrical Safety
- And Many More

**Stay Audit-ready 24/7**

Attain stronger safety numbers with Alchemy, reducing the likelihood of OSHA inspections. But if OSHA does show up, have all the answers at your fingertips. Alchemy’s centralized, automated reporting helps avoid costly OSHA penalties.

- Digital recordkeeping for instant reports on who’s been trained on what, and when
- Instant documentation of on-the-floor observations and corrective actions
- Easily manage all records across multiple facilities

**Deliver More Safety Training in Less Time**

Alchemy’s short, engaging courseware and group-based technology — train up to 150 employees at once — helps EHS leaders keep workers trained while minimizing time off the floor.

**Alchemy’s EHS Course Library Includes:**

- Back Injury Prevention
- GHS Communications
- Ladder Safety
- Lockout/Tagout (LOTO)
- Machine Guarding
- Slips, Trips, and Falls
